The Council of Graduate Schools (CGS) is dedicated to the improvement and advancement of graduate education. Its members are colleges and universities engaged in research, scholarship and the preparation of candidates for advanced degrees. As the largest national association organized specifically to represent the interests of graduate education, CGS offers many opportunities for deans and graduate school personnel to exchange ideas and share information on major issues in graduate education. Over 400 U.S., Canadian and international institutions are represented in the CGS membership.

AAC&U is the leading national association devoted to advancing and strengthening liberal learning for all students, regardless of academic specialization or intended career. Since its founding in 1915, AAC&U's membership has grown to nearly 800 accredited public and private colleges and universities of every type and size.

AAC&U functions as a catalyst and facilitator, forging links among presidents, administrators, and faculty members who are engaged in institutional and curricular planning. Its mission is to reinforce the collective commitment to liberal education at both the national and local levels and to help individual institutions keep the quality of student learning at the core of their work as they evolve to meet new economic and social challenges. www.aacu.org
